

## FOREWORD

Volume 49 of the journal "Helgoländer Meeresuntersuchungen" contains papers presented during the International Helgoland Symposium "The Challenge to Marine Biology in a Changing World", held at Helgoland on the 13th to 18th September 1992 to commemorate the centenary of the Biologische Anstalt Helgoland. The publication of this volume has been delayed by unforeseen circumstances. These compel us to issue Volume 49 as the regular volume for the year 1995.

We are grateful for technical assistance to our librarians I. Renckhoff, B. Sysoew, T. Möller, to our copy editors C. Berger, A. Godfrey, E. Pizzuti, E. Wahl, and for further support to C. Buchholz and J. Willführ-Nast.
